What was promised, was delivered

TMT Plus has played a big role in helping our distributor network grow & enhanced our customer base. Their excellent range of products has attracted more dealers to partner with us. The high-quality and diverse product range from TMT Plus has been better than we expected. We can always rely on them to deliver our uPVC products on time and in perfect condition & we are really grateful for the positive impact they've had on our business.

Mr. Sarwar Hussain Mir

At first, we observed TMT Plus products are expensive. However, after actual usage, we discovered that they effectively resolved the issues we encountered with substandard products. As a result, our customers are now willing to pay a premium for TMT Plus products, leading to repeat orders. This experience has shown us that value is not only about price but primarily about quality. Earlier we believed in only choosing branded companies.

Arun Kumar

By partnering with TMT Plus, I increased my customer base from 50 to over 200. My sales increased by 10 times. The best thing about TMT Plus has been timely delivery.

From starting out solely as an electrical trader, I now provide electrical and sanitary hardware products across Himachal Pradesh.

The marketing support and guidance by TMT Plus has further helped me take the lead in market trends. With more customers, my stock remains at a minimum level.

TMT Plus has an unmatched level of professionalism that will be valuable for anyone looking to expand their business and increase their profit margin.
